

Mallanagowda P

Full Stack Developer — Application Developer — React Native Developer

+91 9901536003 mallanagowdap99@gmail.com Bangalore, India
github.com/Mallanagowda63 linkedin.com/in/mallanagowda-p-9236a32ba

Professional Summary

Results-driven Full Stack and React Native Developer with hands-on experience in **Application Development, Application Maintenance, Troubleshooting & Issue Resolution**, and building **Secure and Scalable Applications** using React.js, React Native, Node.js, Express.js, MongoDB, MySQL, and Firebase.

Skilled in RESTful API development, JWT authentication, CRUD operations, **Performance Optimization**, debugging, API integration, deployment workflows, and scalable application architecture. Familiar with SDLC, Agile development, Git workflows, **Software Development Best Practices, Coding Standards, Technical Documentation**, and collaborative software development.

Experienced in working with development and UI/UX teams through **Cross-Functional Collaboration** to understand application requirements and convert them into effective technical solutions.

Core Competencies

Application Development	Application Maintenance	Troubleshooting & Issue Resolution
Secure & Scalable Applications	Performance Optimization	Coding Standards
Code Reviews	Technical Documentation	Technical Specifications
End-User Support	Cross-Functional Collaboration	Business Requirements
Software Development Best Practices	Root Cause Analysis	Production Support
Multiple Project Management	Project Deadlines	Application Deployment

Technical Skills

- **Programming Languages:** JavaScript (ES6+), TypeScript, Python, Java, C
- **Frontend Technologies:** React.js, React Native, Next.js, HTML, CSS, Tailwind CSS, Redux Toolkit, Context API, Responsive Design
- **Backend Technologies:** Node.js, Express.js, REST APIs, JWT Authentication, MVC Architecture, CRUD Operations
- **Database Technologies:** MongoDB, MySQL, Firebase
- **Development Tools:** Git, GitHub, Postman, Android Studio, Expo, VS Code
- **Cloud & Deployment:** AWS Cloud Fundamentals, Vercel, Netlify, Render
- **Application Engineering:** Application Development, Application Maintenance, API Integration, Authentication, Authorization, Debugging, Troubleshooting, Performance Optimization, Deployment, Production Support
- **Software Engineering:** SDLC, Agile Development, Coding Standards, Software Development Best Practices, Code Reviews, Technical Documentation, Technical Specifications, Root Cause Analysis
- **Data Analytics:** Power BI, Excel, Pandas

Work Experience

Developer Intern

Scholarlogic, Bangalore

Current

- Developing and maintaining full-stack web applications using modern technologies, scalable architecture, and software development best practices.
- Collaborating with development teams through **Cross-Functional Collaboration** for feature implementation, application development, debugging, and code optimization.
- Contributing to application architecture, API integration, deployment workflows, and scalable application design.
- Performing application troubleshooting and issue resolution during development and testing workflows.
- Working with cloud technologies, deployment processes, and performance optimization techniques to improve application reliability.
- Following development workflows, coding standards, Git practices, debugging processes, and technical implementation requirements.

Frontend Developer Intern

EtherX Innovations, Bangalore

2024 – 2025

- Built and deployed cross-platform web and mobile applications using React.js and React Native with reusable component architecture.
- Integrated REST APIs and optimized frontend rendering techniques, improving application performance by **30%**.

- Collaborated with UI/UX designers and development teams to transform Figma wireframes and application requirements into modern, user-friendly interfaces.
- Refactored frontend modules to improve maintainability, scalability, performance, and code reusability across projects.
- Worked with Git branching workflows, Agile sprint methodologies, debugging, API testing, troubleshooting, and deployment workflows.
- Supported application issue resolution through debugging, API testing, and analysis of frontend and backend communication.

Projects

Influencer Hub

React.js, Node.js, Firebase

- Developed a scalable influencer collaboration platform enabling businesses to discover micro-influencers based on niche, engagement metrics, and audience reach.
- Configured Firebase backend infrastructure for authentication, secure data handling, and real-time updates.
- Implemented secure CRUD operations, campaign management workflows, and dynamic filtering systems supporting scalable user interactions.
- Performed application testing, debugging, troubleshooting, deployment, and Git-based version control.

UDM & TMS – Indian Railways

React Native, Node.js, Express.js, MongoDB

- Developed a full-stack railway ticket and user management application using React Native and Node.js with RESTful API integration.
- Designed mobile application screens and optimized backend APIs for efficient ticket booking and user workflows.
- Implemented MongoDB database operations, authentication systems, API communication, and secure application functionality.
- Tested and deployed backend services using Git workflows, collaborative development practices, debugging, and issue resolution.

Dhannay – Masala E-Commerce Website

Next.js, Express.js, MongoDB

- Developed a full-stack e-commerce platform enabling customers to browse, purchase, and customize masala blends.
- Built scalable backend APIs using Express.js for product management, order processing, inventory tracking, and custom ordering workflows.
- Implemented MongoDB database operations for product catalogs, user accounts, order history, and custom masala management.
- Designed a responsive frontend using Next.js with performance optimization, secure payment integration, and seamless checkout functionality.
- Deployed and hosted the application with optimized performance and reliable application availability.

Certifications

- AWS Certified Cloud Practitioner Essentials – Amazon Web Services
- React Native for App Development – Udemy
- Python Programming – Udemy
- Data Analysis and Visualization – Udemy
- Blockchain Essentials – Great Learning
- Ethical Hacking Fundamentals – Udemy

Education

Bachelor of Engineering in Cyber Security Cambridge Institute of Technology North Campus, Bangalore CGPA: 8.7 / 10	2023 – 2027
PUC (PCMB) Akshara PU College, Bangalore Percentage: 85%	2021 – 2023
